BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz

One hundred and forty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have so served and have received 40 acres

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—or the War of 1812—and in all the Indian Wars, is provided for by said Act

And all who served the above period in the Militia of the State of Maine in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and the Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Papers in his possession and especially very all ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of similar nature

He will, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early.

GEO. B. MOODY,

Counsellor at Law and Agent for Pensioners and Bounty Land Claimants

Office in Dow's Block,

Corner of Hammond and Central sts, Third Story

Bangor, March 6, 1855 dawtf

BOUNTY LANDS.

THE hundreds of Soldiers for whom Land Warrants of less than 160 acres have been procured by

Isaac & John L. Hodsdon,

and if deceased, their widows or minor children, and all others entitled, can receive the benefit of the new Act, personally or by letter, to General ISAAC HODSDON, at Exeter, or the subscribers at Bangor,

John L. Hodsdon,

☞ 24 STORY DOW'S BLOCK, formerly occupied by McCRILLIS & CROSBY

400 LBS WHITE WINDSOR SOAP, old and dry, warranted genuine, for sale very low by GUILD & HARLOW,

jm2 corner Exchange and York streets.

More Bounty Lands.

BY the Act of Congress passed March 3, 1855, all Officers, Soldiers, and Seamen who have served FOURTEEN DAYS in any war of the United States since 1775, are entitled to 160 acres of land, if they have not received it. Those who have received 40 or 80 acres, are now entitled to enough more to make up the 160 Those who have received 160 acres are not entitled to any more The benefit of this Act extends to the widow and minor children of the soldier, but to no others. Those who have been engaged in BATTLE are entitled to 160 acres, without regard to the period of their service.

Persons having claims under this or any other Act, will have them promptly attended to by calling on, or writing to, A. L. RICHARDSON & CO., 11 Railroad Exchange, Court Square, Boston who pay cash for warrants

N. B.—We have faithful and experienced agents in Washington, and we make no charge in any case, unless we obtain the land.

Boston March 28, 1855 3mwdlm

UNITED STATES

Bounty Land Agency.

Press Forward Your Claims!

ARMY and Navy Officers, Soldiers, both Regulars and Volunteers, Sailors Marines, Flotilla-Men, Musicians Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres!!

In the case of the death of the person entitled to and, his Widow or if no Widow, the Minor Child or Children, are entitled to the Bounty

We are prepared to promptly prosecute all claims, forward and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers and others, with the necessary instructions and blank forms free of cost, on application, by mail or otherwise.

When desired, we will sell the Warrant at the market price and remit a check for proceeds

BOUNTY LAND!

B. H. MACE.

Counsellor and Attorney at Law,

WOULD give notice that he is prepared to prosecute all claims to BOUNTY LAND under a recent act of Congress, granting 160 acres to all who have served 14 DAYS in any war since 1790.

Those who have received 40 acres are entitled to 120 those who have received 80 acres are entitled to 80 more. The Aroostook Soldiers (Militia) are included in the above provisions. Widows or minor Children of deceased Soldiers, are also entitled

☞ He having procured many Warrants under the former Acts, and being in possession of the Rolls, feels confident that he can give satisfaction to all who may place their claims in his hands.

☞ No charge unless successful and the highest market price PAID to those who wish to sell Office in Baldwin's Block West Market Square next door to A B Paine's office.

REAL ESTATE.

For sale at a Bargain!

THE subscriber, wishing to change his business, offers his Tavern Stand (the well known "Mansion House") and Farm, for sale a "bargain"

The house is well located, and has a good run of business is now, constructed after the most approved plan, and is thoroughly finished, painted and papered from cellar to attic

Connected with the house is a good Wood-shed 20 by 70 feet, Stable 38 by 74 feet, Carriage house 16 by 64 feet, Barn 41 by 81 feet with shed attached 20 by 60 feet. The above buildings are all new and in perfect order The House and Stable are supplied by aqueduct from a never failing fountain of pure water

The Farm consists of 135 acres of good land (100 acres of which is in pasturage and tillage) and under a high state of cultivation cuts from 50 to 60 tons of hay, and has upon it the largest and best orchard in Hancock county

This Stock and Tools of the place will be sold with it, if desired, also, some very desirable lots of Wood Land

The above offers great inducements to any one wishing to purchase as it will be disposed of at a great sacrifice

G. W STONES

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC.

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public

THE necessity of such a medicine has long been felt both by the heads of families and physicians its advantages over cathartic pills and other drugs in powder must be obvious to every intelligent person It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required but completely removes habitual Costiveness, leaving the bowels perfectly free It rapids all humors from the blood as a certain cure for the Piles, Regulates the action of the Liver frees the stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

Rheumatism, Neuralgia, The Dolourous Gout, Pains in the Head, Side, Stomback, &c

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS yield at once to its magical influence. Again we repeat, TRY IT—it needs no other recommendation No family will be without it after they have properly tested its merits. Rester if you have tried other remedies, without success despair not—relief is now at hand Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you Would you be relieved from habitual Costiveness, three bottles will effect and that you desire If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them—All humors will be eradicated from the blood by the use of from due to six bottles. In short if you require a physic for any purpose, this is the most suitable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

STATE OF MAINE.

Penobscot ss—To the several Sheriffs of our Counties of Penobscot York Cumberland, Lincoln, Kennebec Oxford, Somerset, Hancock, Washington, Waldo, Piscataquis Franklin and Aroostook, or either of their Deputies

GREETING

We command you to attach the Goods or Estate of Asa Sawyer of Cambridge in the County of Penobscot, and Henry A. Potter, of Middlebrook in the State of Massachusetts, merchants, to the value of Five Hundred dollars and summon the said defendants (if they may be found in your precinct) to appear before our Justices of our Supreme Judicial Court next to be holden at Bangor, within and for the County of Penobscot, on the first Tuesday of April next then and there in our said Court to answer unto Dudley L. Oakes, of Brewer, in the County of Penobscot aforesaid In a plea of trespass—for that the defendants at said Bangor on the day of the purchase of this writ, being indebted to the plaintiff in the sum of four hundred dollars according to the account annexed, and to balance thereof in consideration thereof then and there promised the plaintiff to pay him the same sum on demand—yet though often requested, and defendants have not paid said sum or any part thereof but neglect and refuse so to do To the damage of the said plaintiff (as he says) the sum of five hundred dollars which shall then and there be made to appear with other due damages And have you there this writ, with your doings thereon

Witness JOHN APPLETON, Esquire at Bangor the sixth day of March, in the year of our Lord one thousand eight hundred and fifty five

NATHAN WESTON, Jr., Clerk

HANCOCK ss, March 11 1855 By virtue of the within writ I have attached the good schooner Conroy, now lying at Seth Kelley's wharf in North Bucksport as the property of the within named defendants, (Captain Albert Crosby is now master) and put in Allen Curtis as keeper of said schooner Conroy until otherwise ordered

J. L. MANSON, Depy Shff

Incidents of the Fourth.

The Fourth passed off quietly in this city, although there were an unusual number of people in the streets, and one or two attempts at disturbance. A couple of policemen having seized a barrel of liquor at the foot of Union street, a lot of Irishmen show symptoms of resistance, such as throwing brick-bats, &c., at the officers, while they were carrying away the liquor. One of the others was struck by a stone, and finding the pressure upon them getting strong, and greater violence offered, they drew weapons and stood upon the defence.—The Mayor and other officers were promptly on the ground, and the crowd was dispersed without damage. We believe this was the only actual attempt at violence. A Irishman smashed a jug of liquor in the hands of Marshal Weaver, by striking it with a gun, and was arrested.

While carrying some liquor to the police office, in the evening, a stone was thrown at the officers and went through a window at Sargent & Co's drug store, doing damage to the amount of ten or twelve dollars.

There was a disposition of violence manifested in some quarters during the day—indirectly stimulated, we fear, by the remarks of persons who would not have regretted a second edition of the Portland riot. The day happily passed off, however, without serious trouble, and with very little drunkenness. But four or five commitments were made, and none for drunkenness—an unprecedented thing for the Fourth of July. The sales of liquor have been in fact very generally stopped.

The usual foolish of fire crackers was kept up by the boys, through the day, and in the evening there were a few private exhibitions of fire-works. The fog which came up in the evening, however, took the sparkles out of the sky.

An alarm of fire about 7 o'clock, in the evening, was caused by the taking fire of some saw dust, &c., under the sidewalk in front of Perry's drug store on Kenduskeag bridge. The engines were out, and threw water upon it.

The Steamer Penobscot took 700 or 800 people on the excursion down river in the afternoon, and they had a very pleasant time down. But a thick fog came on in the evening, so that they were obliged to anchor near Fort Point on the return, and remain until 4 o'clock next morning, so that the boat did not arrive in the city until after 7. The excursionists say they had a comfortable and pleasant time, nevertheless. Everything possible was done for the comfort and convenience of the passengers, by Capt. Flowers, Messrs. Edmunds and McMurtrie, the gentlemanly Clerks, and by the other officers.

The great trot for a purse of $200, on five mile heats, at the Bangor Trotting Park was attended by a large number of people. Good order prevailed, and there was little if any drunkenness. The following report of the trotting has been given us by one who was present. It will be seen that it was very excellent time made.

The trot was for the "Skow Horse" of Bangor, "Maj. Litchfield" of Boston, and the "Green Stranger" of Augusta, for a purse of $200—best three in five, in harness.

The Maj. br. g. by Litchfield,	2	3 1 1
" " Green Horse, jr.	2	3 2
" " Grey Stranger,	2	3 3
" " Grey Stranger,	2	3 4
" " Litchfield,	2	3 1
" " Green Horse withdrawn.		
" was a dead heat.	2	3 1

Grey Stranger withdrawn, votes awarded to Maj. Litchfield. The match was very evenly contested, and the trotting excellent.

The Bangor Light Infantry had a pleasant excursion to Fort Point, of which an account will be found in another column.

A party of citizens with ladies and children enjoyed a picnic at Campbell Hill, above Hayward's Mills.

The "Secret Lodge" over the body of John B. Gough, is now taken twenty in a day, and expects to finish to-day. There is no sort of interest felt in it by the people at large—except as it exhibits the worst of the rum men to create public sympathy at out of the affair. There was some sympathy felt at first for the unfortunate and maguided man who fell a victim to his unlawfully and the criminal instigations of others—but the thing has been so entirely overdone, as to excite now little under contempt and disgust. By the way, who is to be called upon to pay for it in second inquest? The expense must amount to several thousand dollars—more, probably, than the expenses of the military, about which a great noise was made, although the City Government only asked for twenty men, while General Snell insisted upon keeping two or three companies under arms for several days.

New Maine Map.—Mr J. H. Mansfield of this city, is about issuing an elaborate Railroad, Post route and Topographical Map of Maine, which, it is said, for accuracy and minutiae of detail far surpasses any other yet published. It is on a very large scale, and we are assured that all the villages are given with great fullness and correctness—every principal road, stream, lake and mountain—every railroad and every station upon it, and all other projected public works—all cities, towns, villages, and post offices with the population, valuation, number of farms, manufacturing establishments, &c. being given.

Agents are now procuring subscriptions at $3 per copy.

The Legislature of Connecticut adjourned on Saturday. During the session, 115 public acts were passed; 60 to 70 being the average of past sessions.

It rained quite freely for an hour Tuesday afternoon.

Magnificent Poetry.—The Richmond Dispatch, talks mysteriously about a magnific at wedding to come off at New York during this month, between a wealthy sugar planter from Louisiana, and the daughter of a New York Judge. Two thousand guests, it is stated, are invited, and there are to be feastings and banquetings for four days at the St. Nicholas Hotel, which has been rented for the occasion, at $2000 per day—all the expenses to be borne by the "happy bridegroom," whose pockets are full of rocks. He is to be accompanied from the South by 200 couples of gentlemen and ladies, and to be joined by recruits in every city on the route.

Connecticut.—A friend at Orono says:

"I see you are in your paper that ten delegates attended the Straight Convention at Litchfield, from Orono. You are mistaken as only one attended."

We should have stated that ten persons were *announced*, as having been chosen to go. How many actually went, we could not tell. Undoubtedly the whole ten were counted in the number reported at Parliament.

Suicide at Bucksport.—We learn that the body of Mr. Franklin Page, a mechanic, about 35 years of age, was found, on Wednesday, suspended to a tree, in the woods, about two miles from Bucksport village. He rode out on the day previous, and appears to have first hung himself with a rope, which broke, and he then resorted to the reins. Temporary insanity is assigned as the cause.

Putnam's Monthly for July is received from Ticknor & Co., Boston, and commences the sixth volume of this popular periodical. Contents as follows: Irving's Life of Washington—Birds, or What Chear?—Victor Galbraith—Plant-Mummies, Moral Objects in Europe and America, How I came to the Diamonds, Recent American Poetry, Cape Cod, (continued), Algerilla (continued), Summer and Autumn, Horace Greeley, Twice Married (continued), Mr Pepperage's Fourth of July Oration, Editorial Notes.

For sale by Patch & Lewis.

The Christian Examiner for July contains articles as follows: "Americans and Men of the Old World; Unitarianism and Foreign Mission; Migrations and their Objects; Earnest's Transcr. Greece and the Greek Church; Norton's Translation of the Gospels; James on the Nature of Evil; Literary Notices &c." Crosby, Nichols & Co. publishers, Boston. For sale by Hight & Drew, Main Street, Bangor.

The Fourth in Portland.—No papers were issued in Portland yesterday, but we are informed by John Low, Esq., who came passenger in the Daniel Webster, that the day passed off very quietly, and without disturbance—and that the Floral Celebration was a fine affair—the procession including some three or four thousand persons.

Fireworks.—Our citizens were treated to a display of fireworks last evening from the deck of steamer Daniel Webster. There was also an electrical display from a dense thunder-cloud in the northeast quarter of the heavens.

Piano Tuning, &c.—We call attention to the card of Mr. Cowley, a gentleman who has given the highest satisfaction in tuning pianos and who brings to the business a great deal of experience and skill.

The Know-Somethings of Massachusetts are to have a State Convention at Worcester on the 10th instant.

We have several communications on hand, which shall be attended to as soon as possible.

Several political articles are crowded out to-day by the foreign and local news.

To the Editor of the Whig and Courier:

Rev. Mr. Lee, a native of Ireland will deliver a lecture introductory to a series of lectures on Roman Catholic doctrines, in the City Hall, this evening, commencing at 8 o'clock precisely. The lectures will be addressed to Roman Catholics exclusively, but Protestants also are invited to attend. Go early.

"Opportunity neglected brings repentance."

By request, the first lecture and lesson of Professor Amies, on Memory, will be repeated this evening for new pupils, at the Common Council Room, at 8 o'clock. Since a more intimate acquaintance with the particular merits of this science has been formed, quite an enthusiasm is created. Large classes of ladies and gentlemen have been formed. There can be no new admission after this day.

Among the vast number of the expressions of the merits of Professor Amies, we take pleasure in inserting the following:

At a meeting of the Memory class of this place, held last evening, it was unanimously

Resolved—That we have listened, with great pleasure and profit to the lectures of Professor Amies, and would take this mode of testifying to him our thanks for his instructions and our high opinion of the value of his system. We would most cordially commend it to all who desire to fasten firmly in their memory the great facts and events of history, as a system whose principles are beautifully simple and easily mastered, while their grasp is boundlessly comprehensive.

WM. H. WILLCOX,
Pastor Congregational Church.

Survey of Lumber.

A statement of the amount of lumber surveyed at Bangor from January 1st to July 1st, 1855, compared with the same surveyed during the corresponding period of 1853 and 1854:

	1853.	1854.	1855.
Green Pine,	22,376,945	1,119,343	35,166,983
Dry Pine,	6,259,078	4,200,779	4,251,564
Spruce,	31,843,492	6,385,210	26,182,278
Hemlock, Birch & Ac.	6,743,540	5,477,154	3,501,466
	67,183,055	4,382,956	70,640,241

Surveyor's Office,
Bangor, July 5, 1855.

Did Anybody Want to Stop the Row?—The Bangor Journal, on the morning of the Fourth, published the following paragraph:

The report that the watchmen are to parade with revolvers to-day under the charge of Mayor Heyward, we do not learn to be correct.

Storm and Loss of Property and Life.—*Baltimore, July 3.*—A steamer coming from the harbor of Magatlan, on the Pacific coast of Mexico, on the 6th June, gives an account of the destruction of property by a recent storm. Six merchant vessels, with their cargoes, valued at over one million dollars, were totally destroyed and twenty-three men drowned. The only American vessel lost was the schooner *Chipstead*, in ballast.

(For the Daily Whig & Courier.)

Bangor Light Infantry at Fort Point.

A few choice spirits of the above company, in order to escape the dust, bustle, and boisterousness generally, of an uncelebrated Independence Day, embarked on board the good steamer Terror, Capt. Snow, *en route* for Fort Point, target shooting.

The indefatigable Washburn had been on the ground since 3 o'clock of July 3d, making suitable preparations for a chowder, &c. We were saluted repeatedly by steamers and sailing craft on the way down river, and every salute succeeded in eliciting some such inspiring tune as "Pop goes the Weasel," "Dog Tray," et al, from our band of music. The company landed by sections in boats, being drawn up in single file on the beach and welcomed to the hospitalities of Fort Point by the kind and gentlemanly keeper of the light-house, Capt. John Odom, who freely gave up Uncle Sam's grass field, from which he might reasonably expect some considerable repentit, to be used as a camping ground. Military evolutions were executed with remarkable precision on Uncle Sam's territory by the company, until about 3 o'clock, when the chowder was announced. And about *that* chowder—prepared under the hand of Jack Mahone and the oversight of Sergeant Raynolds, it would have honored the cuisine of the Bangor House. It was incomparable. The *lions* of the locality were then visited, consisting of the light-house and the ruins of the old fort. But the greatest lion is Capt. John Odom, the keeper of the light, formerly a successful and noble sea captain. Having lost his property, he has now retired upon the small salary of light-house keeper, and with his exhaustless fund of anecdote and sailor-like freedom and hospitality, continues to make everybody about him contented and happy. His appointment is certainly one redeeming trait of the present administration, and we would indulge the hope that a future administration, having seen Capt. Odom's good works, may retain him in the service.

Then was in order the target shooting.—Each soldier was provided with three rounds of ball cartridge, and considering the poor guns, (arsenal) and poorer powder, great skill as marksmen was exhibited by the several members. Comparisons, as Mrs. Partington says, are *odorous*, but we must sometimes notice modest merit, and Mr. George Varney made the shots of the day, and wore his laurels meekly.

We must not omit to notice the additional pleasure experienced by the party from the visit of several ladies and gentlemen of the Bucksport Seminary, who by their presence and approval inspired the company to soldier-like bearing in their evolutions, and doubtless contributed much to the riddling of the target. On account of the lateness of the hour, we took the Bucksport as a boat with its load in tow, and alternate songs from the steamer and sailing vessel answered each other until we left our precious charge at Bucksport about 8 o'clock P. M., with about fifteen cheers, and the waving of twenty, handkerchiefs. The wish was unanimous that when the B. L. I. again went on an excursion down river, the same delegation from the Bucksport Seminary may be present.

The company arrived at the wharf at about eleven o'clock, and after marching to the armory and being dismissed by Capt. Hodsdon with a few words in his usual happy manner, separated with three cheers for the captain, three for the officers, three for the Bucksport ladies, three for Capt. John Odom and Fort Point. When again the B. L. I. goes on an excursion, "May I be there to see."

F.

Mr. Calhoun and the Missouri Compromise.—The condensed history of Mr. Calhoun's opinions upon the compromise shows that Mr. Calhoun admitted the power of Congress to legislate in the territories, in 1820—that he admitted it again in 1838, and denied it in 1847 and '48. More important yet show that the dogma now promulgated, and which is embraced by the administration Democracy, that Congress has no power to legislate upon slavery in the territories, had its birth in 1847 and that Mr. Calhoun is its progenitor. Still, more important, it shows that what was considered as constitutional by the South in 1820, was destroyed by the South in 1854, on the ground of expediency. These are important premises. They unmistakably show that the South scruples not to violate a constitutional compact when it is for her interest so to do.

Mr. Benton, in commenting upon the debate of 1838, speaking of the compromise, says that such legislation was "the highest the most solemn, the most momentous, the most emphatic assertion of Congressional power over slavery in a territory which had ever been made or could be conceived. It not only prohibited it where it could legally be carried, but forever prohibited it where it had long existed."

Such is the testimony of one who, of all others living, is best able to give information relative to he past thirty years of our political history. Yet in the face of all this, we are complacently told that Congress has no power to legislate upon slavery in the territories!

Boston Journal.

New York, *July 3.*—The Schr B. S. Learned, from Port au Prince, arrived here this morning, having on board Capt. Cole, officers and crew of the ship Star Republic which was burned at sea on the 1st inst., when three days out from this port for Galveston.

Mayor Hall of Brooklyn has issued his official instructions to the police, touching the prohibitory law, pointing out their duties in the premises. He states that the law can and shall be enforced, and that he should hold the police department to a strict performance of their duties. An exciting time is anticipated in that city.

The Census Marshals report the population of the city proper at about 750 000.

A letter from Havana of the 26th ult., states that yellow fever and black vomit were prevailing to an alarming extent among the troops in Puerto Principe, and slightly at Nuevitas.

Suicide.—Yesterday at East Corinth B. Frank Wadleigh, son of D. Wadleigh, Esq. was found dead in the woods where he had been engaged in peeling bark. A small tree to which he had suspended himself was bent over by his weight, and his hands touched the ground so he was discovered this morning. He used to hang himself the string of a snow-shoe. It is supposed the act was committed in a fit of temporary aberration of mind.—*Mercury.*

Webster Kelley, Esq., of Boston, died today. Mr. Kelley practised his profession for several years in this city, associated in business in the firm of Kelley & McCrillis. He moved here from Frankfort about 1841, having been for a long time a leader at the Waldo bar. Mr. Kelley was accomplished in his profession, a sagacious counsellor, and a strong advocate.—He was connected with the family of Daniel Webster.—*Mercury 5th.*

LATER FROM EUROPE.

ARRIVAL OF THE

AMERICA,

AT HALIFAX.

Abortive Attempt to Storm Sebastopol! Great Slaughter!

Difficulties in the Principalities!

The Russians using Submarine Torpedoes!

Peace still considered "Possible!"

Reduction of the Austrian Army!

Halifax, Telegraph Office,
July 20th, 1855.

Steamship America, from Liverpool on the afternoon of Saturday, June 23d, arrived at Halifax, July 4th, at 1 o'clock and 10 minutes, P. M., with one week's later intelligence.

The steamship North Star had arrived at Havre.

The steamship Hermann from Southampton, 20th, had 250 passengers and 350 tons cargo.

Sebastopol.

Lord Raglan's dispatch, and the newspaper correspondence are to hand, describing the gallant capture of the Gamelon and the Quarries. The description is exciting; but the main facts are already known.

Defeat of the Allies! Terrible Slaughter!

The besiegers have made an unsuccessful attempt to storm Sebastopol.

The most sinister rumors prevail.

The English loss is set down at 4000 men, but it is hoped that this is exaggerated.

The following are the only official notifications:

"Lord Panmure regrets to have to announce that he has received information that the troops attacked the Redan and the French the Malakoff Tower, at day light, on the morning of the 18th, without the success that has hitherto attended our efforts. Both the French and ourselves have suffered considerably. The names of the officers who have fallen will be forwarded immediately; but it will be impossible to receive complete returns of all the casualties before the 30th, at soonest."

The Paris *Moniteur* announces that the Government has received two despatches from Pelissier.

The first, dated the 17th, informs of operations concerted between the General and his Allies, and that the Turks and the Chasseurs had made a reconnoissance towards Aldiar, Bosquet occupying the river Tchernaya. The next day, at day-break, the French and English were to attack the Malakoff Tower and the Redan.

The second despatch announces that the attack had failed; and although the troops had shown the greatest valor and had gained a foothold in the Malakoff Tower, Gen. Pelissier was obliged to order their retreat into the parallel. This was effected with order, and without molestation from the enemy.

Private accounts published in the London Standard say the loss of British officers in killed and wounded amounts to no less than seventy. Among the killed are Gen. Sir J. Campbell, and Colonels Yea and Shadforth.

From the obstinacy and courage with which the combat was maintained by the British at the Redan, and the necessity of eventually returning from the attack, the slaughter on all sides, has been immense; and, if information be correct, he loss in killed and wounded of the British alone amounts to very little short of 4000. The greatest portion of the loss was experienced in a ravine, where a powerful and unexpected battery was opened on the troops. There is reason to fear the loss has been great, but Lord Palmerston said last night that no additional information had arrived.

The Allies just terribly, in consequence of the springing of a mine by the Russians, and, during the confusion, they recaptured the Mamelon, which was re-stormed by the French.

Previous advices were to the 17th, stating that there had been a smart firing on both sides; but without results of importance.

A despatch from Bucharest via Vienna, confirms that an expedition has been undertaken against Perekop.

Pelissier is excessively savage against the perpetual telegraphic messages Napoleon sends him. He is reported to have bluntly replied that when anything occurs that he will let the Emperor know; but has no time to act as a telegraphic operator. This, according to rumor, accounts for the recent absence of news in the *Moniteur.*

The Black Sea.

Russian accounts of the Allied successes in the Sea of Azoff are published. Gortschakoff confirms the successes claimed by the Allies; but says that operations against the Sea of Azoff were expected, that not having means to oppose powerful hostile fleets, the garrisons had orders to blow up the batteries, and retire. The grain and stores burned by the Allies were mostly private property, and do not materially affect the supplies of the army, inasmuch as, anticipating such an attack, the supplies were mostly conveyed by land, notwithstanding the superior facilities afforded by the Sea.

Correspondence relates horrible atrocities perpetrated by the French and the Turks, at the capture of Kertsch.

A boat expedition is rumored to be preparing to enter the river Don. But the Russians are prepared to defend it at the entrance with twenty-seven gunboats.

The General of the Cossacks of the Don has issued an address for their general enrollment as militia.

The Russian forces have advanced and encamped near Redout Kale.

The Turks have evacuated Bloum and Choborchik.

Naus Pasha has advanced with his staff to Kars.

A despatch from Varna, of June 17th, says the Russians had made an unsuccessful attack on Kars, and it was reported that they had retaken Anapa. Both reports are doubted.

The Principalities!

The Austrian commanders had proclaimed martial law in Moldavia; but the Moldavian authorities refused to promulgate the order unless by direction of the Sultan.

Constantine Hulsha, step-son of the reigning Prince of Moldavia, has been killed at Jassy, in a duel, by an Austrian Major. The duel and its result have caused great sensation in the Principalities.

The Baltic.

Admiral Bune's squadron of 7 steamers has left Riel for the Baltic Sea.

The rest of the fleet lay off Seskerscland.

The recent attack on an English boat's crew, at Hango, while under a flag of truce, causes much excitement in England. The evidence rests on the authority of a negro—the sole survivor, who asserts he heard the Russian officer says: "I don't care a d—n for a flag of truce."

Unprejudiced parties suppose the boat was taking soundings, as recently at Kertsch.

Admiral Dundas has communicated the affair to the Authorities and the British Government, through the Danish Minister at St. Petersburg, demands redress.

The Russian account says six were killed, and the remainder of the men are prisoners.

A despatch from Dantzic confirms the report that the officers of the boat, namely: Lieut. Genesse, Doctor Eaton, Mr. Sullivan, and all of the crew, except six men, are prisoners.

Infernal machines exploded under steamers Merlin and Firefly, off Cronstadt, on the 9th, and damaged, but not seriously, both vessels.

Diplomatic.

Prince Gortschakoff is appointed resident Russian Minister at Vienna, M. Titoff to Wurtemberg, and M. Fonton to Hanover.

Russian influence is very active in the small German Courts.

The Journal of St. Petersburg publishes the official discussion on Count Walewski's French circular of May 29; Walewski's having been itself a reply to the Russian circular of April 28. The Journal semi-officially announces that peace is possible; inasmuch as the fourth point is morally, though not formally, settled, and other points, namely: the navigation of the Danube, and evacuation of the Principalities, are also settled—leaving only the Vienna third point to be arranged.

Turkey.

Camp healthy, excepting at Balaklava, where cholera prevails. The Sardinians are suffering. Gen Marmora, the younger, is dead. A national monument is to be erected at Scutari.

Great Britain.

The Hermann brought intelligence of the presentation to Parliament of the report of the Roebuck committee. The report merely admits that the sufferings of the army have been aggravated by incompetency at home. Since then, there has been excitement on the subject, and Roebuck, whose report was somewhat overruled by other members of the committee, has given notice of a vote of censure on the government, so worded as to embrace the grievances of all sections of the opposition, namely: The Parliament deeply lamenting the sufferings of the army during the winter campaign in the Crimea, and concuring with the report of the Sebastopol committee, that the conduct of the administration is the chief cause of the calamity, hereby visits with its severest reprehension every member of the Cabinet which led to such disastrous results.

The debate on administrative reform, after repeated adjournments, was ended in the unanimous passage of Bulwer Lytton's resolution, and recommends to the earliest attention of ministers the necessity of a careful revision of the various official establishments, with a view to simplifying and facilitating the transaction of public business, by instituting judicious tests of merit, as well as by removing obstructions to its fair promotion and legitimate reward, to secure to the service of the State the largest available proportion of the energy and intelligence for which the people of the country are distinguished.

Sir John Paul, William Strachan, and Robt. N. Bates, partners in the banking house of Strachan, Paul & Co., London, are arrested on charge of disposing of securities entrusted to their care.

Mr. Buchanan has received the degree of Doctor of Canon Law, from the University of Oxford, as did Chief Justice Robinson, of Canada, Sir Charles Lyell, Alfred Tennyson, De Lacey Evans, and Moncton Miles.

The admiralty have awarded £16,000 to the salvors of the ship James Cheston.

France.

The Senate and Legislature are convoked for July 2d, to negotiate a new loan of $100,000,000 or $150,000,000.

Napoleon had been ill two days, but had recovered. French funds fell 2 per cent. on the announcement of his illness.

The Countess Lavallette died at Paris on the 18th.

Nineteen hussars were court-martialed at Rouen for mutiny, and two were sentenced to be shot.

Spain.

The disturbances at Santiago have been suppressed. We have no reliable statements respecting the progress of the Carlist insurrection. Russia is supposed to be the instigator. Mr. Dodge, the American Minister, had his first interview with the Minister of Foreign Affairs on the 23 h, and friendly remarks were exchanged.

Lord Howston, the English Minister, left Madrid on the 21st.

Extra estimates are voted for the re-organization of the navy.

Switzerland.

The opening of the Federal Assembly is fixed for July 2d.

Italy.

The marquis Azaglio is sent on a special mission from Sardinia to London.

Germany.

An Austrian despatch, dated the 12th, proposes to provide that Russia and Austria should come to an understanding, as to a common course of conduct, to be adopted by the two powers in their communications in the Diet at Frankfort.

Denmark.

The Danish Diet is dissolved. A decree forbids enlistment for foreign services, under a penalty of eight years imprisonment.

Austria.

The Austrian army is being disbanded. The reduction is great and is rapid.

Latest News.

BY TELEGRAPH FROM LONDON, SATURDAY, 11 A. M.

Marseilles, *Friday night.*—The English steamer Astrologue has arrived bringing news from Constantinople to the 16th of June. There has been a slight engagement at Eupatoria, since the 12th of June. The Russians attacked unsuccessfully, the battery of the besiegers.

The general loss in the taking of the Mamelon and the Quarries is 4000 men.

Markets.

Wheat is declining at Marseilles.

Demand for Cotton very limited.

Continuous fine weather, has kept the market very quiet; without, however, any further noticeable decline in Indian Corn, which is 1s. 6d. lower.

White Wheat 11s. 9d. a 12s. 4d., red, 10s. a 11s. 6d.

Western Canal Flour, 40s a 41s.; Philadelphia and Baltimore 41s a 45s; Ohio 44s a 46s. 6d., Canada 44s. a 42s.; Sour 40s a 41s.

White Corn 51s. a 51s 6d; mixed 49s. 6d, Yellow 49s 6d a 50s.

[Correspondence of the Whig and Courier.]

Examination of the Senior Class at Old Bowdoin—Compliment to Prof. Cleveland.

Brunswick, July 2d, 1855.

Mr. Editor The annual examination of the Senior Class of Bowdoin College took place on Friday last. It is said to have been unsurpassed by any examination in twenty years. It was unusually thorough, searching, and protracted, especially in the department of the Natural Sciences.

At the close of the examination, the emancipated Seniors proceeded to the old oak fronting the new Chapel, where the mystic circle was formed with clasped hands, and the customary thrice-repeated run about the tree was made. This ceremony was performed amidst the admiring shouts of Seniors, Sophomores, and Freshmen, just issuing from evening prayers. A marshal being chosen, the Seniors formed in procession and marched to the Laboratory in the Medical College, where the Faculty and Visiting Committee were in waiting. Here a beautiful gold-headed cane, valued at $50, was presented, on behalf of the class of 1855, to the venerable Professor Parker Cleaveland, as a token of gratitude for his laborious and faithful services. The address of presentation was made by W. L. Putnam, of Bath, and was neatly and characteristically responded to by Prof. Cleaveland.

In the evening, the usual Class Supper took place at Commons' Hall.

On Saturday morning following, the assignment of parts for the coming commencement was publicly announced, and received by the students with unprecedented satisfaction. They were assigned as follows:

Salutatory in Latin—Charles Titcomb, Farmington.

English Orations—Charles H. Foster, Benjamin B. Foster, Orono; Joseph K. Greene, Marietta, Ohio; Thomas A. Henderson, Dover, N. H., John A. McIntosh, Farmington, Wm L. Putnam, Bath.

Philosophical Dissertations—H. F. Hayes, T. H. Little, B. P. Snow.

Literary Dissertations—Edward Hawes, F. V. Norcross, John F. Tinkham.

Disquisitions—E. Ross, G. C. Voss.

Discussions—O. B. Hewett, C. E. Shaw.

In addition to these, Poems were assigned to Samuel S. Gardner, of Brewer, and Samuel R. Crocker, of Newton, Mass. These gentlemen were the Poets respectively of the Peucinian and Athenian Societies, at their recent anniversaries.

The graduating class numbers nearly forty, and is highly respectable in scholarship and talent. The exercises at commencement are expected will be of unusual interest. Dodworth's famous band are engaged for the occasion; and arrangements will be made to accommodate visitors with the utmost hospitality.

Very respectfully yours,
Beaumont.

Indian Affairs—Interesting from Kansas.—*St Louis, July 1*—We learn that a party of seven men on the route from Fort Sarpy, were attacked on the first of May by a band of 300 Sioux Indians, and one of their number, George Sikes, of Quincy, Ill., killed. The remainder of the party were detained some time by the Indians, but were finally permitted to proceed, and reached Fort Sarpy, having suffered greatly on the route.

The Sioux were also congregating in great numbers around Fort Pierre.

We learn from Fort Leavenworth that Mr McCrea, who shot Malcolm Clark, has been committed to jail on the charge of murder, bail having been refused.

It is reported that a violent personal rencontre had taken place between Gov. Reeder and Stringfellow, and that the Governor was badly beaten.

A Tactiture Customer.—A week or two since a decently dressed elderly man called at the shop of our townsman, Mr. Muirhead, jeweller and watchmaker, Buchanan street, and quietly asked if his watch was ready, or, in other words, if it had been repaired. As Mr. Muirhead had no remembrance at the moment of having done business with the man, he asked in turn when he had left the article. "Oh," said the other, "I didna' leave it in this shop, for ye were ower bye in Nelson Street when ye got it." Mr. Muirhead, "That must have been a long time ago then, for we left Nelson street in 1838—that is seventeen yearsslence."

"But I left it wi' ye, for a' that," said the other. He was then asked for the name and number of the watch, which he described to a nicety, and on opening the repository it was found safe and sound. Exactly twenty-two years have passed away since Duncan handed it in for repair, yet he called for it, at the end of that period as coolly as if he had only left it the preceding week. Duncan's account is—"Ye see, I am a sawyer to my trade, and I gaed over to America that season to see how things were looking, for I kent the watch would be safe till I cam' back, but I stayed a wee thocht longer than I intended."—*Glasgow Chronicle.*

Ship Builders' Bank.—We hear from the most reliable authority that the time during which the receivers of the Ship Builders Bank, of Rockland, were to receive its bills, having expired on the 29th, ult., the affairs of that institution are found to be as follows:

Whole circulation.	$273,000
Books of the Bank show in circulation.	119,000
Overissue	$108,000.

First Premium

PIANO FORTES!

WE have received the agency, for Bangor and vicinity, for the sale of

Brown & Allen's Piano Fortes,

which are acknowledged by competent judges to be, in the essential requisites of a Piano, the *best* now made in this country.

Mr. Brown was of the old firm of Brown & Hallett, (whose Pianos have been long in the market), and are much admired for their durability and purity of tone; subsequently ten years connected with the justly celebrated manufactory of the late Jonas Chickering, Esq., where he perfected and applied his PATENT GRAND ACTION.

Piano Fortes of their manufacture are distinguished for *unrivalled pure musical quality of tone*, and superior *elastic action*. See extract from Report of Committee, on Musical Instruments, at the Rhode Island society for the encouragement of Domestic Industry, holden September 12th, to 16th, 1854.

"After a careful examination of the *Rich* workmanship, externally and internally, and after repeated trials and tests, we, your Committee feel prepared to say that this (*Brown & Allen's*) Piano Forte is one of the very best they have ever met with in the course of some *seventeen years* observation of the progress of Piano Forte manufacture in this country. In *purity*, combined with *power* and *mellowness of tone*, in *evenness* of tone from the bottom to the top of the scale, in the great excellence of the action, in thoroughness and elegance of workmanship throughout, in all the qualities, in short, which unitedly constitute a first rate Piano Forte, this instrument in the opinion of your Committee, has not been surpassed by any Square Piano hitherto introduced among us, and the committee feel entirely worthy of the highest premium in this department."

Read the following certificate from a well known competent judge

—CERTIFICATE—

To whom it may concern:—I have had occasion to use, and to select for many of my friends, Piano fortes made by Messrs Brown & Allen, and I do not hesitate to say that their instruments are not second to those made by any other person or persons in the city, and in many of the more important points, such as purity of tone and neatness of touch, durability, &c., I cannot but give to them the preference. I would therefore recommend to those who may wish to purchase, to call at 336 Washington street and examine for themselves.

Stockholders' Meeting

Of the Penobscot & Kennebec Railroad Company.

THE Stockholders of the *Penobscot & Kennebec Railroad Company* are hereby notified that their annual meeting will be held on TUESDAY, the fourth day of July, A. D. 1855, at ten o'clock A. M., to act on the following subjects:

1st—To open the number and choose the necessary board of Directors for the ensuing year.

2d—To hear and act upon any report of the Directors, or any officer of the Company, which may be submitted.

3d—To act upon what means, if any, they will authorize the Directors to take in relation to the purchase or sale of the stock of the leasing of lines to meet the wants and liabilities of the company.

4th—To act upon any other matter which may legally come before the meeting.

By order of the Directors

MOSES L. APPLETON,

Clerk of the Pen & Ken R. R. Co.

Bangor, June 16 1855 10m

Central Market House Co.

NOTICE is hereby given that three assessments, being the *ninth, tenth* and *eleventh*, amounting to one hundred and thirty dollars on every share of the capital stock of the *Central Market House Company*, has been voted and assessed, and will be due and payable to the Treasurer, at his place of business, No. 8 Central street in Bangor, the said ninth assessment of thirty dollars on the twenty-third day of June instant, the tenth assessment of thirty dollars on the twenty-first day of July next, the eleventh assessment of thirty dollars on the tenth day of August next.

FRANKLIN MUZZY, Treasurer.

Bangor, June 11, 1855 3w

PENOBSCOT

Lumbering Association.

AS there seems to be some misunderstanding as to the limits of the Boom or in regard to its rights, the following extract from the Act of 1851, in relation to the Penobscot Boom, is published for the information of all concerned, viz:

"Section 2d. The limits of said boom shall be the same as are prescribed in the Act of incorporation thereof, extending upon rivers, tributary to the head of Upper Dam, and said corporation shall have the exclusive right within said limits to boom, pick up and raft logs, and are authorized to collect the same at such places from their limits as they shall deem necessary.

If there are any who claim logs are allowed to pick them up within those limits, other than under pretence of ownership may pick up logs. And it would not be just to the Association, it is to the lumbering community, for the boom business must be paid on these logs picked up, or all the general expenses of the Association now be the same, and the cost of rafting the large boom with others of the same marks will be trifling.

All persons are therefore forbidden to pick up logs within those limits except by authority of the Association and under its direction.

Stages between Bangor and Pittsfield connect with each train.

Through tickets sold to Boston and Portland, as before.

EDWIN NOYES, Sup't.

March 27, 1855

DR. J. H. SCHENCK'S SEA WEED TONIC,

—FOR THE—

Cure of Dyspepsia.

THIS remedy is composed of a compound preparation of a common weed growing along the sea shore, and is a certain remedy for the cure of Dyspepsia and its accompanying diseases, to wit:

Sour and Sick Stomach, Loss of Appetite, Heartburn, Pain in the Side and Breast, Palpitation of the Heart, Ulcers and Eruptions of the Limbs, Chills and Fevers, Gravel, and Diseases of the Kidneys, Nervousness, Weakness of the Limbs, Fainting Spells, and all diseases peculiar to Females.

Now if every person in the country afflicted with Dyspepsia, or some of the diseases connected with it, and it is with feelings of pleasure that Dr. Schenck can announce to all such the discovery of the virtues of the Sea Weed, which is just the remedy for their ailments. Dyspepsia and the many diseases arising from it, is caused by the deficient secretion of the gastric juices, and weakness of the powers of the stomach. The effect of the Sea Weed Tonic is felt soon after it is taken, as it supplies at once the principles of the deficient gastric juice, and the food is digested naturally. In fact he Tonic so nearly resembles the natural gastric juice that stomachs even find difficulty in distinguishing them. It gives tone and strengthens the stomach, thus enabling it to secrete the proper quality and quantity of gastric juice, and Dyspepsia and all its diseases soon disappear.

It is a well known fact that none suffer like the Dyspeptic, for in addition to the Dyspepsia there is often either Headache, Sour and Sick Stomach, Pain in the Side, Palpitations of the Heart, Chills and Fever, Gravel, Disease of the Kidneys, Nervous Weakness and Tremors, General Debility, Faintness, Loss of Appetite, Bad Taste, Fever, Sleeplessness, Female Weakness, all or each of them arising from a disordered state of the Stomach, and Sea Weed is a really discovered remedy, for the trifling sum of one dollar, that will cure all this train of disease.

Now Dyspeptic, will you not avail yourself of this remedy for so trifling a cost? or will you still suffer on? The choice is for you to make. The Sea Weed Tonic is a pleasant bitters, giving a person a good appetite and good digestion; in fact up in a quart bottle, always agrees with the stomach, and *one bottle* generally gives a cure. Whenever the bowels are costive the tongue furred, or the complexion sallow, a few of Schenck's Mandrake or Liver Pills are to be used. A box of these Pills accompany each bottle of the Tonic, and will be found in a recess of the bottle, covered with a label.

SCHENCK'S MANDRAKE PILLS

WILL be found to possess those qualities necessary to the total eradication of all bilious attacks, powerful to start the secretions of the liver and give a healthy tone to the entire system. Indeed, this is no ordinary discovery in Medical Science, to have invented a remedy for these stubborn complaints, which develope all the results produced by a hard-to-cure free use of calomel—a mineral justly dreaded by mankind—and acknowledged to be destructive in the extreme to the human system. That the properties of certain vegetables comprised in the mixture of calomel, without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific researches, and those who use the Mandrake Pill, will be fully satisfied that the best medicines are those provided by nature in the rose, roots and herbs of the fields.

The Pills open the bowels and correct all bilious derangements without salivation, or any of the injurious effects of calomel or other poisons. The secretion of bile is promoted by these Pills, as will be seen by the altered color of the stools, and disappearing of the sallow complexion and cleansing of the tongue.

Ample directions for use accompany each box of Pills, and the price of a quart bottle of the Sea Weed Tonic and box of Pills complete, is only one dollar. But separate boxes of Pills can be had of any of the agents for 25 cents.

These remedies are prepared under the personal supervision of Dr. J. H. Schenck, proprietor of Dr. Schenck's Pulmonic Syrup, the well established remedy for Consumption, Bronchitis, Coughs, Colds, &c., &c., and the inventor of the celebrated Respirometer, for examining and detecting all diseases of the Lungs, Heart, &c.

Oldtown, April 23, 1855 tf

New England Roofing Company,

MANUFACTURERS OF

WARREN'S IMPROVED

Fire and Water Proof Composition Roofs,

Office——7 Liberty Square, Boston.

THIS Company would respectfully solicit the attention of Builders, Architects, Manufacturers, and the Public, to this much approved system of Roofing, which has been very generally adopted in the cities of Buffalo, Cincinnati, Chicago, and St. Louis, and with a the past year in Boston and vicinity, where it has given entire satisfaction. It is rapidly superseding the use of all other kinds of Roof, and is confidently offered to the Public, as a mode of Roofing unobjectionable in every important particular.

The materials employed are none of them subject to corrosion or rust, like the metals, nor will they expand and contract with the changes of temperature, like tin and zinc, nor shrink in dry weather, and swell in damp, like shingles, and other wood coverings.

It combines in a greater degree than any other Fire Proof Roof now in use, the valuable requisites of cheapness, durability, and security against both Fire and Water.

These Roofs require an inclination of not more than one inch to the foot; leaving it in good condition for a promenade for drying purposes, and is of particular advantage to adjoining buildings in the event of Fire.

They are afforded at a much less price than any other Fire Proof Roof. The amount of material saved, and which would be used (by the old method) in raising the walls, and framing a steep Roof, still further reduces the cost of the building.

Another advantage gained, is the securing of rooms in the Upper Story, of the same dimensions and quite as commodious, as those in the lower part of the building. The expense of a Three Story building, with this improvement, not being greater than that of a building of two stories with the pitched roof. There is a further saving in the cost of gutters.

These roofs are not affected by the jar of machinery—like those of Tin or Slate.

The Composition is so prepared that it is not affected by the extremes of heat or cold.

In case of injury from any cause whatever, the roof is so easily or quickly repaired.

Further information obtained by applying at either of the Company's Offices.

Bangor, Sept 19, 1854 6m jan9

(Continued from last week.

Radway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the bowels, Liver and Pancreas, to a healthy discharge of their functions.

One will insure a pleasant discharge from the Bowels, at a regular period of time every day.

Four to six will purge thoroughly all corrupt and acrimonious humors from the alimentary canal.

Important to Pill Takers.

Every one who is in the habit of taking pills will find RADWAY'S REGULATOR the most pleasant, safe, and effectual regulator of the bowels, Liver, Pancreas, and the most *certain Purifier of the Blood* in use.

One of *Radway's Regulators* is superior, in point of medical strength and efficacy, to six of the most popular and best approved common pills.

Radway's Regulator.

Radway's Regulators are most carefully prepared from extracts and gums of trees, plants, roots and herbs. There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R. R. REGULATORS. No pills can be taken for any length of time with the same safety to the constitution, for, instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels, and impart strength to every nerve and tissue of the body.

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills? We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels merely, called purgative pills, and those which excite the secretion of the liver, and are called mercurial or liver pills. Radway's Regulators resemble pills merely in shape, but differ in every other characteristic. They act not only on the bowels, but on the liver, skin, pancreas, and kidneys, regulating each organ to a healthy action. They are not drastic, and never give pain as most purgative pills do; they stimulate the liver without endangering the patient with salivation, as mercurial pills do; contain no ingredients in their composition, they are harmless when used for a length of time. They are tasteless, being enveloped in an elegant coating of gum. 1 to 3 regulate, 3 to 6 purge—good at all times.

As a Family Physic

RADWAY'S REGULATORS are the most innocent, safe, mild and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaint, Jaundice, Head Ache, Nervousness, Melancholy, Diseases of the Bladder.

Female Complaints,

Leucorrhœa, Fluor Albus, Whites and Irregularities of all kinds.

Bilious Diseases,

Bile on the stomach, Bilious Cholic, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys.

R. R. R. REMEDIES are sold by Druggists everywhere.

For great cures performed in a short time by R. R. Relief, see next weeks paper. R. R. R. Medicines act quick—the moment they are taken or applied their health-relieving efficacy is experienced.

PUBLIC HOUSES.

Eveleth House,

At Foot of Moosehead Lake,

GREENVILLE, ME.

W. H. CROSSMAN, formerly of the Waterville House, Waterville, and JOHN SHAW, formerly of the King House, Bath, would respectfully announce to the public, generally, that they have taken the above named new and convenient House, and furnished it throughout with substantial and elegant furniture, and are prepared to furnish the Traveling Public or Pleasure Parties, with better accommodations than can be found at most Hotels at large cities.

As a Summer Retreat

For Hunting, Fishing, Bathing, or to the lovers of beautiful Scenery, this House and location offers great attractions—more probably than any in the State of Maine.

Persons traveling for business or pleasure will find at this House a table well supplied with the luxuries of the season, good Rooms, and every accommodation which can be desired.

The subscribers hope, by strict attention to business, and keeping in every respect a good House, to receive a liberal share of patronage.

CROSSMAN & SHAW, Proprietors

Greenville, Jan. 20, 1855 tf

WADLEIGH HOUSE,

OLDTOWN, ME

S. W. DUDLEY.

The above well known stand has been thoroughly overhauled and renovated, and in all its appointments the comfort of the traveling public has been consulted. feb1

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. TICKER, would respectfully announce to the Traveling Public that he has reopened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary for continuing it as a first Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons travelling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

Nov. 23, 1854.

LET US REASON TOGETHER

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and subjecting HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and unbiassed people as the best remedy the world ever saw or the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most decorative Governments have opened their Custom Houses to the introduction of these Pills, but they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been injured, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma	Dropsy	Inward Weakness
Bowel Complaints	Debility	Lowness of Spirits
Coughs	Fever and Ague	Piles
Colds	Female Complaints	Stone and Gravel
Chest Diseases	Headache	Secondary Symptoms
Consumption	Indigestion	Tumors
Dyspepsia	Influenza	Venereal Affections
Diarrhœa	Inflammation	Worms of all kinds

*** Sold at the Manufactories of Professor Holloway, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in boxes, at 25 cts., 62½ cents, and $1 each.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.

Fisk's Patent Metallic BURIAL CASES!

THESE CASES are extensively used, and possess valuable advantages over all other Coffins, for transportation, depositing in Vaults, or for ordinary Interments. They are made of the most Imperishable Materials, also cemented inside and out to prevent rust or corrosion, and when properly cemented, we have the gratifying reflection that the bodies of our deceased loved ones enclosed in them are *Free from Irruption of Water or Depredations of Vermin*, and may, without offensive odor be kept, obviating the necessity of hasty burials, or if desired, transported to a distant land. The remains of the late

Hon. Henry Clay, Daniel Webster,

and many other distinguished persons, are entombed in receptacles of this kind.

Also, Mahogany, Black Walnut, Birch and Pine

COFFINS,

of all sizes, constantly on hand at the Furniture Ware Rooms of

A. & E. Foye & Co.,

Hammond street—opposite the Court House.

Bangor, May 5, 1855 dkw

KENNEDY'S

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst scrofula down to a common pimple. He has used it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of the value of it, within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of piles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure coughs and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Two to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so unpleasable to those who have not yet tried all the wonderful medicines of the day, as that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, as time same cases but not yours. He has peddled over a thousand bottle of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache one bottle will always cure it. It gives great relief in cataract and dizziness. Some who have taken it have been costive for years, and have been regulated by it. When the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept. 19, 1853.

This is to certify that R. H. RAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE and that he is supplied with the GENUINE, direct from my Laboratory.

(Signed) DONALD KENNEDY.

For sale by dealers in Medicine generally.

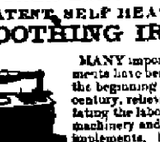
House-keepers, look at this Admirable Invention!

JUST RECEIVED!

ANOTHER LARGE LOT OF

PATENT SELF HEATING

SMOOTHING IRONS!



MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements, but female aids have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Irons*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch—one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

For sale, wholesale and retail, by the subscriber, who is the only Agent for Penobscot County.
